## LASH LIFT (LAMINATION)

Lash Lifts are designed to enhance your natural lashes by curling and lifting, giving the appearance of longer lashes for 6-10 weeks. An Eyelash Tint further enhances the lash length and depth, with colour from root to tip.

Lash Lifts are a healthier, less costly and more time effective alternative to lash extensions. Choose from...

### The “OG” Lash Lift

For the unsure beginner, or someone looking for a lift, that curls those straight lashes to look longer and naturally beautiful.

### The Korean Lash Lift

For the lover of extreme “curl”, that love their lashes to stand to attention.

## BROW LIFT (LAMINATION)

A Brow Lift is used to set eyebrow hairs into your desired shape, whether it be to give a more fluffy and full shape, or to correct curly hair to straight, or even fill out a flattened “cowlick” brows.

A Brow tint further enhances your new shape by giving colour to even the fine small hairs.

Upgrade to a Hybrid Dye for a deeper more dramatic makeup look.

## HYBRID BROWS

If a brow tint is too semi-permanent for you and a Brow tattoo is too “permanent”, this may be the perfect Demi-permanent option for your brow colouring.

This is the ultimate intense Brow dye that gives a skin stain for up to a week and brow hair colour for 4-6 weeks.

## TINTING

This is, without doubt, the cheapest “facelift” you’ll ever have, giving the appearance of light eye makeup.

Lash and Brow tinting is quick, easy and affordable, lasting 3-6 weeks, (results vary).

## DERMAPLANING

Dermaplaning is a form of deep exfoliation of the face. It helps to remove dead skin cells and vellus (peach fuzz) hair. This helps to revive dull and dry skin, making it feel smoother, more youthful and can help to treat fine lines and acne scarring.
